EmbRaceR: Feature Selection

Dejan Sarka

Instructor Bio

- ## Dejan Sarka
  - ~35 years of experience
  - Data Platform MVP, MCT
  - 18 books
  - 20+ courses
  - Focus:
    - Data science
    - Data quality
    - Data modeling

Course Introduction

- Too many variables in a model can make its own problem. This is the fifth course in the EmbRaceR course set and shows how to do feature selection, including introducing the basics of matrix calculations.

Modules

- Linear models and matrix algebra
- PCA and EFA

End of module 00: Course Introduction
